9 version you should try version 3.51.9 then Where can i find it? libkmod-hci0.23-1_3.51.9-1.1_amd64.deb Thank you :) i find it by searching for 'libkmod' in the ubuntu software center if you want more help, ask more questions okay I just installed it. what next? Thanks Ben64 !recovery | Billz Billz: If your system fails to boot normally, it may be useful to boot it into recovery mode. For instructions, see im not understanding how to use it. I don't see anything about it Billz: that should explain you how to recover your system it's ubuntu 16.04? Billz: if you choose recovery, you will see alot of options Billz: yes 16.04.2 so is my laptop being suspended when on battery? it's ubuntu 16.04.2 sry Billz Billz: If your system fails to boot normally, it may be useful to boot it into f3e1b3768c
