Fools Rush In is a movie released in 1997. Puerto San Carlos Puerto San Carlos is a nature reserve in the western suburbs of Gibraltar, located in the Civil parish of the same name. It is managed by the Gibraltar Ornithological and Natural History Society and is part of the Gibraltar World Heritage Site. Flora and fauna The Rock is covered in various types of woodland and the lower parts of the rock are covered in sea grass and patches of sand. The area is home to a wide range of bird species including Painted Bunting, Crested Lark, Eurasian Spoonbill, Peregrine Falcon and Common Buzzard. Birds of prey A short walk through the woods outside the visitor centre leads to the site of a nest box constructed by the Society. Many raptors can be found here, including the Speckled Peregrine, the Hobby, the Yellow-legged and the White-rumped. More specifically, the invention relates to an induction motor which is connected to the armature winding of a dynamo and which is cyclically energized to vary the inductance of the winding of the motor and the inductance of the winding of the dynamo. Induction motor generators are well known in the prior art. Generally, these prior art machines include a rotor rotating about an axis of rotation, the rotor being provided with a pair of diametrically opposed slots in which armature winding is disposed. The armature winding has two sets of conductors wound thereon in a manner that the conductors in one set are spaced apart and the conductors in the other set are spaced apart from one another by a predetermined angular amount. In these prior art machines the armature winding is disposed in the armature slots at such a distance from the rotor that a space is provided for the winding
