moo0 Transparent Menu - Moo0 Transparent Menu is an easy-to-use program that lets you adjust the transparency levels and assign colors to various menus in Windows, such as the Start menu and right-click menu. Some of these modifications are noticeable in various applications as well. Moo0 Transparent Menu Features: If you like to be able to see the real-time results in the screen shot of the pictures, add "Add picture" and then "Started" to a selected location. This program cannot be used to combine on a single context menu. If you like to be able to see the real-time results in the screen shot of the pictures, add "Add picture" and then "Started" to a selected location. This program cannot be used to combine on a single context menu. The installation procedure does not take a long time to finish. You should pay attention, though, as the program offers to download and install third-party components that it does not require to fully function. Once started, the app creates an icon in the system tray area, so you can bring up its context menu to apply settings and view real-time results as well. Menu transparency can be set to a level between 0% and 100%. Moo0 Transparent Menu provides a long list of colors and themes, and it is possible to assign them to highlights as well. Disabling the new effects can be done by either exiting the program or just turning off the feature from the context menu. It offers support for multiple languages and can be set to automatically run at system startup until further notice. The tool runs on a low amount of CPU and RAM, so it does not affect overall performance. We have not come across any problems throughout our evaluation, since Moo0 Transparent Menu did not hang, crash or pop up error messages. All in all, this app gives users the possibility of personalizing their operating system by changing right-click menu transparency and highlights color. Thanks to its intuitive options and overall simplicity, even first-time users can quickly figure out Moo0 Transparent Menu.
