Keymacro is the only software in the world that allows you to record, and then edit, all keyboard shortcuts on your computer.

KEYMACRO has two parts: 1. The application itself is an all-in-one recording software. This means that you can record (and save) all the keyboard shortcuts (keystrokes) you use in your day-to-day tasks on your computer. 2. The power of

---

this software is that you can record the keyboard shortcuts for all your software applications! You can even record the shortcuts for any other application that is installed on your computer. There are no limits to the number of keystrokes you can save. You can record all the keystrokes you use in a day, a week, a month, a year, a decade, or even your lifetime! The software provides a toolbar with the shortcuts you are recording, plus the ability to pause and/or stop recording the shortcuts anytime you want! The application does not require the use of a USB-mouse, and you can use it from anywhere, so long as you have a Windows PC and you have a standard keyboard connected to your PC. KEYMACRO
