FIFA 22 is EA SPORTS FIFA's boldest, most authentic, most ambitious sport simulation ever, and the first ever FIFA game to be powered by the brand-new engine in FIFA 19. This new engine uses an updated version of the Frostbite™ game development platform and new gameplay technology, and allows for unprecedented freedom of creativity. FIFA 22 delivers innovations in both gameplay and presentation, from implementing an even more immersive matchday experience, to challenging AI systems, and bringing depth and realism to pro-level and grassroots teams. Players can also experience game modes and virtual audiences that are as authentic and immersive as possible, with new features such as the ability to build a stadium from scratch and play on the MCM pitch and in stadium and community atmospheres, as well as an all-new crowd mode and dedicated football personalities. FIFA 22 unleashes the true power of the game engine, allowing it to deliver with unrivaled authenticity and visual fidelity. More than ever before, this new engine opens the doors to creativity, allowing the world's most passionate fans to join the gameplay and become part of the sport. EA SPORTS FIFA 22 is focused on delivering the most authentic experience possible by bringing together everything that makes football great, from its unique art style to the most authentic and diverse gameplay experience ever seen in a FIFA game. FIFA 22 marks a fresh start for FIFA and is the first game in the popular franchise to be powered by the latest version of the Frostbite™ game development platform and the world-class gameplay engine. What are the new innovations? There are over 130 new gameplay innovations and gameplay feature upgrades throughout the game's single player mode, and these are supported by new gameplay mechanics, updated animations, and all-new fan experience. In addition, more than 200 bug fixes and enhancements have been made to the Football Manager community mode. FIFA 22 is the first FIFA game to feature the new dynamic animations. These combine real-time footwork and movement animations with a new physics engine. This means that players can now move like real-life athletes, making them more unpredictable and exciting to watch. Fans also have a new weapon at their disposal with this new animation system, and a wide range of new facial expressions. The look of the game has also been enhanced with improved art style, and new licensing models have been implemented. These include licensing models for player and team apparel, many new player and team kits,
